## About the Plans

### **select**

The Expatriate Healthcare Select Plan is one of the most comprehensive private medical insurance plans on the market today. A total solution to your healthcare, chronic, dental and maternity needs. Our flagship plan not only provides you with excellent cover in the event of an illness, it also provides preventative benefits (vaccinations, check-ups and screenings), for a healthier outlook.

### **primary+**

Complete healthcare cover – The Primary+ Plan is based on our Select Plan without the elective services. It is an intelligent medical cover package, which competes favourably with most other providers' flagship products. Primary+ gives you access to your family doctor; inpatient, day patient and outpatient cover with reimbursement for specialists, physicians, chronic cover and alternative treatment (such as osteopathy, homeopathy and acupuncture).

### **primary**

The essential elements – The Primary Plan is aimed at covering you when you need it most. It includes inpatient and day-patient medical costs plus follow-up outpatient treatment and the Emergency Assistance and Repatriation benefits. The Primary Plan provides you with cover to protect you against larger financial commitments.

### Medical Expenses

We provide cover for inpatient and outpatient medical costs, liaising with medical staff and ensuring that you are receiving appropriate treatment.

Should any member of your family fall ill and require emergency medical transportation, we provide a round-trip airfare ticket for an accompanying dependant insured under the policy.

### Dental

Your general health and well-being also extends to your dental health. Good dental health requires regular and routine check-ups and resulting restorative treatment can be costly.

Expatriate Healthcare understand that prevention is always the better solution so we provide you with cover for routine check-ups and treatment plus, in the event of further treatment being required, both basic and major restorative treatment.

### Maternity Care

We know that when you are expecting a baby, you need to feel confident that appropriate care is available.

Once you have been covered by the policy continuously for 12 months, if you become pregnant, we provide for your antenatal appointments in the run up to the big day and for the delivery itself. And to get you back on your feet in those early days, we also allow for home nursing for 5 days after home delivery.

### Emergency Assistance

In the event of an emergency, one simple call to Expatriate Healthcare's assistance service provider and arrangements will be made for you to be transported to the nearest location for appropriate treatment.

Through our multilingual 24-hour support partner, we will liaise with you, your family and the local healthcare services, keeping you continually updated.

24 hour Emergency Medical Assistance is standard on all of our international healthcare plans.

## Key Features

### Preventative Care

Your health and well-being and that of those you love and value is of paramount importance. Expatriate Healthcare is committed to keeping you all healthy by providing regular health checks and tests. These include vaccinations, annual medical check-ups and cervical smears.

We even provide for prostate cancer screening and mammograms for the over 45's.

### Optical Care

Changes to your eyesight are inevitable. That's why Expatriate Healthcare provide a benefit covering the cost of an annual eye examination for each person insured under the policy.

Where there is a change to your prescription we will also cover you for the cost of prescription lenses (including standard contact lenses).

### Complementary Medicine / Therapies

Should you be prescribed complementary treatment, we cover chiropractic help, osteopathy, homeopathy and acupuncture.

### AIDS/HIV and Chronic Conditions

We understand that not all medical conditions can be cured.

Chronic conditions usually require you to have regular check-ups, nursing care and routine or daily medication. Thankfully, with the right medical support, many people can live a relatively normal life whilst suffering with a chronic condition. However, the financial implications can be devastating.

We support you by providing benefits in respect of both HIV and chronic conditions.

Our key features are not available on all plans. Please see 'Benefit Schedule' for full details.

## Income Replacement Insurance

Protect your income against an accident or an illness that prevents you from attending your usual occupation. Expatriate Group's Accident & Illness Insurance, provides you with worldwide protection against accidental death, permanent disablement and temporary disablement. The policy pays you a weekly sum in the event of temporary disablement or a lump sum in the event of permanent disability or accidental death.

Here are some of the Key Benefits of our policies:

- ✓ 'Usual occupation' cover
- ✓ Lump Sum for Accidental Death
- ✓ Lump Sum for Permanent Disability
- ✓ Weekly benefit for Temporary Disability
- ✓ Underwritten @ Lloyd's of London
- ✓ Designed with Expats in mind

## About the Plan

### Financial peace of mind for when you're unable to work

Income Replacement Insurance protects you and your family by providing you with a lump sum payment if you can no longer attend your normal occupation due to accident or illness. The policy can be extended to provide you with a weekly benefit if your time away from work is likely to be temporary.

### Permanent Disability Insurance

What would you do if an accident or illness permanently stopped you from being able to attend your normal occupation? What alternative occupations are accessible? What would happen to your earning potential?

Expatriate Healthcare's income replacement insurance pays you a lump sum in the event that you are unable to attend your normal occupation due to an accident or an illness – securing the financial future for you and your family and putting your destiny back in your hands.

Permanent Total Disability benefits are available up to ten times your normal gross annual salary, for people aged between 18 to 65 years of age.

### Accidental Death

Your death is likely to have an effect on your family beyond the physical loss that is endured; the financial loss of the death of a primary wage earner is difficult to appreciate. A lump sum payment, decided by you at the outset of the policy, is paid to your designated grantee, affording your family with financial security in the event of your death. Cover is available for 18 – 65 year olds, with an amount payable of up to 10 times for gross annual salary.

### Temporary Total Insurance

You don't have to be permanently disabled to suffer a financial loss. Long term disability through accident or illness is likely to affect your income and your ability to pay your bills.

Expatriate Group's Temporary Total Disability cover provides a number of choices to allow you to tailor cover to match your own personal circumstances. Benefits are payable weekly and are calculated based on your net weekly salary when the cover is purchased. Benefit payments can start from as soon as your 14th day of disability; payable for up to 2 years.

The weekly benefit payments provide you with the peace of mind to know that, when you can't work through accident or illness, you will still be able to continue to meet your financial commitments.

## **Emergency Assistance information**

## How to Claim (International Healthcare)

Log in to Member Services to pre-authorise claims, make a claim online or check the progress of an existing claim.

Medical Insurance providers are judged on how they service a claim. After all, this is why the cover has been purchased in the first place. We know this and we are committed to making the process as simple and painless as possible for you.

We will always endeavour to settle claims within 5 working days of their substantiation.

### Inpatient Claims and Claims likely to exceed €1,000

Please obtain our prior approval as soon as reasonably possible, but at least 7 days before treatment. This will enable us to pre-approve your claim so that you don't have any nasty surprises and we can guarantee costs directly to a hospital so that you don't have any out-of-pocket expenses.

### Outpatient Claims

Once you become aware that you need to make a claim against your policy please call us for the appropriate claim form.

Please return this with proof of your loss, detailing the dates, nature and cost of the illness and the treatment prescribed and provided, with original receipts, as soon as reasonably possible.
